GREETINGS FROM THE PRESIDENT

Dear Colleagues,

May I wish you all a Happy Western New Year which begins on January 1st and I hope to welcome you to ISMINIM 2019, the International Summit of Minimally Invasive and Noninvasive Medicine which will take place in Chongqing in 13–14 July 2019, in association with the meeting of the Chinese Medical Doctors Association.

The last meeting in 2017 saw 140 lectures in two and a half days, with 7 parallel sessions. Around 600 participants took part, among which about 480 from China and 120 from 16 different countries.

According to CMDA's estimation, we are expecting more than 800 participants in 2019, so make sure you are one of them. I look forward to seeing you there.

With best wishes for 2019!

David Cranston MB ChB. D.Phil., FRCS.

President of ISMINIM

Hands-on workshop

Ox-liver experiment

Simulation treatment on software

Simulation treatment on model

Pre-conference, we will organize a hands-on workshop using High Intensity Focused Ultrasound Technology. In this workshop, the working principles and operation techniques will be demonstrated. Participants will have the chance to try the hands-on treatment simulation. There will be no registration fee, but there are only 2 sessions with a 50 person max limit totally. These spots will be allocated on a 'first come, first served' basis. Participation is limited to qualified medical professionals only.

EXPLORE THE CITY-CHONGQING

EXPLORE THE CITY-CHONGQING

Chongqing is the largest municipality in southwest China. It is a modern port city on the upper reaches of the Yangtze River at the confluence of the Yangtze and Jialing Rivers. As China's fourth municipality after Beijing, Shanghai, and Tianjin, Chongqing has maintained rapid economic development while preserving a wonderful natural environment.

Known as the 'Mountain City', it has a wavy terrain and encompasses a wealth of water reserves, mineral resources, dense forests, and abundant flora and fauna.

The city attracts visitors from home and abroad for its natural wonders and cultural heritage. As a common starting port for the Yangtze River cruise, tourists can go for a downstream tour to the magnificent Three Gorges. (Sources from www.travelchinaguide.com)
