Philippe Descamps

Dear Friends, Dear Colleagues,

As FIGO Past Vice President and as President of the ISMIIVS, it is my pleasure to invite you to the Yangtze International Summit of Minimally Invasive and Noninvasive Medicine that will be held in Chongqing from the 20th of June to the 22nd of June 2025.

As you may remember the last meeting organized in July of 2023 was a huge success. The main theme of the next summit will be "The future of minimally invasive and noninvasive medicine" with what will undoubtedly be a very interesting keynote lecture by Prof. Wang along with several sessions dedicated to Artificial Intelligence and HIFU.

The Haifu Focused Ultrasound Tumor Therapeutic System is now available to patients in over 32 countries and regions across the globe, and has been used for the treatment of more than 280,000 patients with various benign and malignant tumors as well as over 1,000,000 patients with non-tumor diseases. I believe that the promotion of minimally invasive and non-invasive technology for the preservation of organ integrity and function is paramount.

In this spirit, I welcome you to this event aimed at uplifting the wellbeing of patients suffering from benign diseases and cancers. May this be a time of learning and growth for us all. Please forward this message to all physicians involved in the field of minimal invasive and non invasive medicine. The ISMINIM leadership team and myself look forward to welcoming you to Chongqing.

Wishing you a Happy New Year 2025 !

Sincerely yours,

A handwritten signature in black ink, appearing to be 'P. Descamps', written in a cursive style.

Prof. Philippe Descamps,
President of International Society of Minimally Invasive and Virtual Surgery

About the Yangtze Summit

The Yangtze International Summit of Minimally Invasive and Noninvasive Medicine started in 2013 and has been successfully held in Chongqing, China for 5 times up to 2023, with the participation of more than 3200 domestic and international professionals. This significant academic event aims to share the latest progress made in the field of minimally invasive and non-invasive medicine. Minimally invasive and non-invasive treatments have become the trend of modern medicine, among which the focused ultrasound ablation technology, as a representative technology of non-invasive treatment, is leading the development of minimally invasive and non-invasive medicine, providing a new and better option for doctors and patients.

The 6th Yangtze International Summit of Minimally Invasive and Noninvasive Medicine are expected to attract about 500 experts from home and abroad. The Summit aims at providing a platform for doctors, experts, and scholars around the globe to exchange their clinical experience and the latest research results, so as to promote the comprehensive development of minimally invasive and noninvasive medicine, build up a multidisciplinary and interdisciplinary cross-platform, strengthen the international academic exchanges, as well as facilitate promoting the global development of minimally invasive and noninvasive medicine.

Program at a glance

JUNE 20 (FRIDAY)

- 9:00 – 17:00 Registration
9:00 – 16:00 2025 “Haifu Cup” Case Competition –
Competition on Focused Ultrasound Case Study
19:30 – 20:30 2025 ISMIVS Board Meeting
2025 Young ISMIVS Committee Meeting

JUNE 21 (SATURDAY)

- 08:30 – 12:30 Keynote reports: The development and future of minimally
invasive and noninvasive medicine
13:30 – 17:30 **Parallel session 1**
New advances in minimally invasive and noninvasive
treatment of uterine fibroids
Minimally invasive and non-invasive treatment of adenomyosis
and fertility preservation
Parallel session 2
Treatment Strategies for Liver Cancer
New hope for the treatment of pancreatic cancer
Parallel session 3
Socioeconomic effects of focused ultrasound therapy
Operation experience of day clinics

JUNE 22 (SUNDAY)

- 08:30 – 12:30 **Parallel session 1:** Young physician debate contest
Parallel session 2
Minimally invasive and noninvasive treatment
of breast diseases
Strategies and techniques for noninvasive treatment of vulvar
and cervical diseases
Focused ultrasound for rehabilitation and physical therapy
& Other indications

Organized by: ISMIVS, Chongqing Medical University

Co-organized by: The Second Affiliated Hospital of Chongqing Medical University,
National Engineering Research Center of Ultrasound Medicine of China

Training Workshop for High Intensity Focused Ultrasound (HIFU)

About HIFU

High Intensity Focused Ultrasound (HIFU) refers to the noninvasive therapeutic technology that concentrates the energy of extracorporeal low-intensity ultrasound beams onto the targeted lesions inside the body, resulting in a rapid temperature rising up to 65-100°C at the focal point and an induction of irreversible coagulative necrosis without damaging the surrounding tissues.

Indications

Solid tumors such as liver tumor, pancreatic tumor, kidney tumor, bone tumor, uterine fibroids, etc.; and adenomyosis.

About the post-conference training workshop

After the Summit, there will be a 3-day hands-on workshop for HIFU therapy. In this workshop, participants will learn the working principle and operation techniques of this innovative technology. More details about the Workshop will be released in the 2nd Announcement.

More details will be released in the 2nd announcement

Registration

Registration for the Summit

Scheduled on: June 20 – 21, 2025

Registration fee:

Early bird – USD 300.00

On site – USD 400.00

Venue: Jinke Grand Hotel, Chongqing (China)

How to apply: For early-bird registration, please send your name, institution, and contact to the Ms. Hannah Xu (hannahxu@isminim.org) before April 30, 2023 and make payment upon arrival of the meeting venue.

Registration for the Post-conference Training Workshop

Scheduled on: June 23, 2025

Registration fee: USD 500.00

Registration closing date: April 30, 2025

Venue: HIFU Training Center, National Engineering Research Center of Ultrasound Medicine, Chongqing, China

How to apply: Please send your CV, passport scan copy, and a head-shot photo together to hannahxu@isminim.org

Enquiry

Secretary: Ms. Hannah Xu

Mail: hannahxu@isminim.org

WeChat/WhatsApp: +86 15823815650

More details will be released in the 2nd announcement

Call for Abstracts

With more than 500 participants, ISMINIM 2025 is one of the best platform for the exchange of ideas and progresses in minimally-invasive and noninvasive medicine. Make the most of the opportunity to showcase your scientific achievements by submitting your abstracts to the Summit.

The abstract submission will be closed on March 31, 2025. Please submit your abstract to Ms. Hannah Xu (hannahxu@isminim.org) before the date.

All abstract will be reviewed by our panel and notifications of acceptance or rejection will be sent to the author by the end of April 2025.
